contact us for your direct and individual needs for the best result.

Landor UK is located in Fleet Hampshire, Bolton, Greater Manchester,UK We have additional distribution services in Paris region France to support the majority of our european distribution area.

We specialise in Sustainable and Durable solutions. Our key products are Phototex non surface damaging removable fabric and Liquid Lamination products. that are generally technically advanced solutions for print and installation applications offering both ease of installation and particularly easy non damaging surface removal and recycling.

Our business is focused on Product Management and project management. We work directly with Brand owners, agencies, Designers, Print and print managment companies throughout the visual communications and art/print production market sectors.

Since 2003 Landor UK has tirelessly found the right product or devleloped it for the solution and improvement of digital print and installation projects

We have speciality knowledge and expertise, and always happy to share this and support all sectors including OEM, resellers and end users or specifiers alike.
