Features

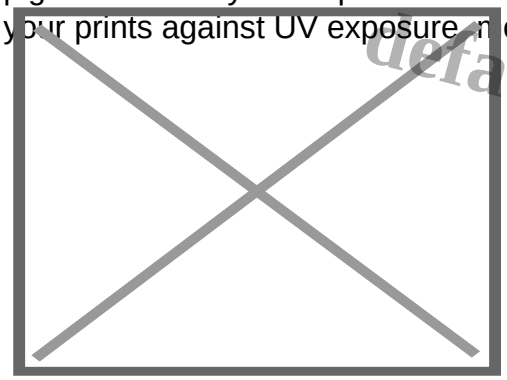

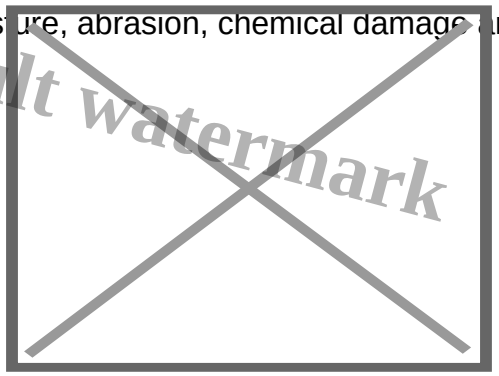

- Ships ready to use
- Coats a variety of substrates up to 1.6m (64â?³) wide
- Applies a smooth, even and consistent coating

- Easy to use and designed for single-operator use
- Cleans up in less than 10 minutes
- Suitable for shopfront print outlets or high-production printing
- Ideal for use with **ClearShield Liquid Laminate**

Applications

- Vehicle graphics
- Backlit signs
- PoS (point of sale)
- Trade show displays
- Banners
- Wallcoverings

Our water-based **ClearShield Liquid Laminates** can be used over solvent-based output and pigmented ink systems printed on water-resistant substrates. **ClearShield Liquid Laminates** protect your prints against UV exposure, moisture, abrasion, chemical damage and marring.
