

Truck Curtain Printing & Branding â?? 25 Years of Trusted Support

Description

default watermark

Helping Manufacturers, Producers, and Distributors bring Sustainable brand visibility to the road.

For more than 25 years, **Landor** has been working with, supporting and protecting the truck curtain industryâ??working with curtain producers, truck body manufacturers, distributors, printers and specifiers, across the UK, Europe, as well as Globally.

Over this time, advancements and the development in printing curtains has been percieved as slow, often due to concerns around investment, â?? Not at All!

Durability, or Technical complexity, often myths opposing this innovative and highly appealing and beneficial market.

But thatâ??s exactly where we help.

The process does require some precision, the right materials, and respect for systems and processes as well as expert guidance and support.

At Landor, we combine hands-on experience with proven know-how to make **truck curtain branding** practical, effective, and long-lasting.

While itâ??s not rocket science, there are a few basic guidelines that will transform your image and your Reach to your benefit.

Good quality **Digital curtains** adapted for print, Weave and vehicles from small to large, colour management, finishing and preparation as well as over coatings with the right technology, and processing will lead to many years service and protection on the surface of every truck fabric.

For Rigid Sides and Cabins, rear of vehicles as well as Front signage, Our High performance, Eco Friendly protective coatings preserve and maintain your branding for the life of your vehicles.

We can even help you plan for seasonal or temporary visual communications: promotions, advertising or speciality communications!
